C2 ONLINE TRAINING

From 23 – 25 November 2021, the C2 online training of the Entre4all training took place online with adults learners with disabilities from all participating countries. During the C2 training, participants discussed their different entrepreneurial dreams. They were inspired by external speaker, Lenka Puh, from the Jazon Institute and together with Polona Lakota Kukovec from the research and development Centre of Ormoz, they completed their first business canvas.

TOOLKIT & OUTREACH-CAMPAIGN

The last 2 outputs developed in the ENTRE4ALL project are the ToolKit, with essential information for each organisation that wants to set up an ENTRE4ALL community centre and an outreach campaign for policy recommendations. It contains descriptions of all the actions that will be taken for the sustainability of our project, a memorandum of commitment signed by partner organisations, as well as a declaration to the European Parliament und Commission.

MULTIPLIER EVENTS

As our project is approaching its end, multiplier events have been taking place in Slovenia, Austria, Cyprus and Greece. At our events, we have been introducing potential multipliers (including important stakeholders such as disability organisation, VET organisations, social entrepreneurs, and municipality representatives) to the project outputs. Depending on the local COVID regulations, events have been organised either in person or in online settings.
