FINMAN Project

ISSUE 3 • NEWSLETTER JANUARY 2022

OUR GOAL

Our goal is to provide **financial education to the most disadvantaged people**, who need this knowledge the most, before making major financial decisions and support them in order to make the ones which are the best for each one individually.

For that reason, we intend to develop **learning content, assessment tools and a trainer's guide** based on the identified knowledge gaps and skills needed.

Moreover, all the material has the potential to reach even more people not only during the project but also outside of it, since it can be used for further initiatives, as well.
