THE BALANCE E-LEARNING PLATFORM

An e-learning platform promoting green practices among the direct and indirect project target groups will be developed. The platform will be used primarily by SMEs' decision makers, SMEs, and business consultants complementing the training program developed in Intellectual Output 2. The platform will run in any desktop computer or tablet, while it will also be linked to a dedicated mobile application in order for the users to have easy and fast access anytime from anywhere.

AIM OF THE E-LEARNING PLATFORM

The goal of the dedicated platform is fully aligned with the project objectives and refers to the promotion of engaging e-learning courses to the project target group. In particular, the courses will be dedicated to the promotion of green practices in businesses and address the needs of SMEs and business consultants. A dedicated section providing access to EU legislation and environmental sustainability initiatives will be also performed.
