

**PROMOTING TEACHERS' PROFESSIONAL DEVELOPMENT AND INCLUSION THROUGH THE INTEGRATION OF EMERGING TECHNOLOGIES IN THE TEACHING OF CHILDREN WITH AUTISM**

## ABOUT THE PROJECT:

The project aims to cultivate digital skills and competences of parents and teachers of children on the Autism Spectrum. Through the integration of new interactive technologies and innovative tools in the teaching pedagogies of children with autism, their engagement in the learning process can be increased.

## TARGET GROUPS:

- Primary School teachers and special needs teachers
- Primary school children with autism (8-13)
- Parents, Social workers, Psychologists
- Community actors (e.g. policy makers, public authority groups)

## WORK PACKAGES

The results of the BeAusome project are divided into the following Work Packages (WPs):

- WP1: Project Management
- WP2: BeAusome Dual Pack - scenarios for Virtual Reality (VR) game and educational pack for parents and teachers of children with autism
- WP3: VR game for children with autism and project interactive e-platform
- WP4: Training Mobilities (for fascilitators, children with autism, their teachers and parents)
- WP5: Development of BeAusome ToolKit and School Action plan: Dissemination and Exploitation strategies of project

## What's new?

Partners will meet in Poland for the first Transnational Project Meeting in February 2023 to discuss progress of WPs 2 and 3 and allocate responsibilities to each organization.

Did you know that  
1 in 100 children  
receives an  
autism diagnosis?
